ADAM RAWLES

⌁ SKILLS

R
5+ of experience both using and teaching the R programming language.
Experienced in applying various statistical methods with R Ability to build and implement machine learning models using TensorFlow and the `keras` interface

Data Analysis
Highly skilled in data presentation and reporting Extensive experience in data extraction from SQL databases and experience with database design and maintenance.

Development
Many years of experience using development-workflow tools including Git, Github and Azure DevOps Experience creating and maintaining build and release pipelines

💼 PROFESSIONAL EXPERIENCE

2019
|
Current

Data Analyst
Guernsey Financial Services Commission   📍 Guernsey, CI

• Recreated and automated the generation of various data reports using R.

• Created a Shiny-based UI for users to interact with the report generator.

• I was the lead developer for a project utilising machine-learning and advanced modelling to improve financial regulation

• Developed and implemented a tool to flag problematic documents to supervisors based on a neural-network

• Implented a completely custom R repository that utilised automatic-building tools and a RESTful API

• Further developed and delivered R training materials (teacheR and opeRate)

PROJECTS

teacheR

A book aimed at beginners to the R programming language. Hosted at https://teacher.arawles.co.uk.

BMRSr

An R package that provides functions to better access the Balancing Mechanism Reporting Service API provided by ELEXON. Documentation hosted at https:///bmrsr.arawles.co.uk.

faviconR

An R package providing a set of lightweight wrapper functions to the RealFaviconGenerator.net API, used to generate favicons.

2018
|
2019

Graduate Data Analyst
ELEXON   📍 London, UK

• Performance Assurance Review team

  • 6 months

  • Implemented a new risk simulation, utilising a Monte-Carlo
    methodology in R to better estimate the financial cost associated with
    specific risks.

• Market Analysis team

  • Automated and updated market reports, allowing them to be
    automatically published to the ELEXON website with custom HTML
    widgets to allow for greater user interaction.

  • Developed an R package to facilitate the extraction of energy-related
    data from the Balancing Mechanism Reporting Service API provided by
    ELEXON called BMRSr.

• First developed materials to teach R to beginners that would eventually
  become the teacheR and opeRate books.

🎓 EDUCATION

2014
|
2018

Cardiff University
First Class Honors - BSc. Psychology   📍 Cardiff, UK

Project: An Evaluation of Spatial Representations of Order and the
Efficacy of Online Studies

• Designed an online and lab-based version of a cognitive psychology
  experiment testing the relationship between actual and represented
  differences between items in a list.

• Extended the functionality of the developing PsychoJS software to run
  the experiment online.

• Analysed the difference in responses between the online and lab
  versions of the study as a secondary research topic.
